* For the peace of mind of your fellow dancers, to ensure maximum compatibility with facility and insurance guidelines, and consistent with the practices of most area clubs that have resumed in-person dancing, this dance is open to **FULLY VACCINATED DANCERS ONLY**. As defined by the CDC, "fully-vaccinated" means that you have completed a recommended course of vaccination against COVID-19 (e.g., second dose for Moderna or Pfizer, single dose for J&J) at least 14 days before the dance.

If you have not been vaccinated against COVID-19, or if you have a fever or any other symptoms of any contagious disease, we ask that you skip this dance.

We want you – and everybody else – to remain healthy to be able to enjoy future dances!

Policies for this dance have been set based on our best estimate of what will be allowed by the facility and other relevant entities at the time of the dance. As these rules are constantly changing, policies for this dance are also subject to change.

** **SSD** stands for "Social Square Dance", an alternative entry-level program adopted by CALLERLAB this year. The list of calls is almost identical to what was used for the easy tips at General Dances in 2019-20.

Anyone who knows Mainstream or Plus will be able to dance the SSD tips.

Anyone who knows Plus will be able to dance all the tips.
